

Code of Virginia
Section 63.2-1509
Mandatory Reporting of Injuries to Children

§ 63.2-1509. Physicians, nurses, teachers, etc., to report certain injuries to children; penalty for failure to report.

A. The following persons who, in their professional or official capacity, have reason to suspect that a child is an abused or neglected child, shall report the matter immediately to the local department of the county or city wherein the child resides or wherein the abuse or neglect is believed to have occurred or to the Department's toll-free child abuse and neglect hotline:

1. ...

9. Any mediator eligible to receive court referrals pursuant to § 8.01-576.8; ...

15.

This subsection shall not apply to any regular minister, priest, rabbi, imam, or duly accredited practitioner of any religious organization or denomination usually referred to as a church as it relates to (i) information required by the doctrine of the religious organization or denomination to be kept in a confidential manner or (ii) information that would be subject to § 8.01-400 or 19.2-271.3 if offered as evidence in court.

If neither the locality in which the child resides nor where the abuse or neglect is believed to have occurred is known, then such report shall be made to the local department of the county or city where the abuse or neglect was discovered or to the Department's toll-free child abuse and neglect hotline.

If an employee of the local department is suspected of abusing or neglecting a child, the report shall be made to the court of the county or city where the abuse or neglect was discovered. Upon receipt of such a report by the court, the judge shall assign the report to a local department that is not the employer of the suspected employee for investigation or family assessment. The judge may consult with the Department in selecting a local department to respond to the report or the complaint.

If the information is received by a teacher, staff member, resident, intern or nurse in the course of professional services in a hospital, school or similar institution, such person may, in place of said report, immediately notify the person in charge of the institution or department, or his designee, who shall make such report forthwith.

The initial report may be an oral report but such report shall be reduced to writing by the child abuse coordinator of the local department on a form prescribed by the Board. Any person required to make the report pursuant to this subsection shall disclose all information that is the basis for his suspicion of abuse or neglect of the child and, upon request, shall make available to the child-protective

services coordinator and the local department, which is the agency of jurisdiction, any information, records, or reports that document the basis for the report. All persons required by this subsection to report suspected abuse or neglect who maintain a record of a child who is the subject of such a report shall cooperate with the investigating agency and shall make related information, records and reports available to the investigating agency unless such disclosure violates the federal Family Educational Rights and Privacy Act (20 U.S.C. § 1232(g)). Provision of such information, records, and reports by a health care provider shall not be prohibited by § 8.01-399. Criminal investigative reports received from law-enforcement agencies shall not be further disseminated by the investigating agency nor shall they be subject to public disclosure.

B. For purposes of subsection A, "reason to suspect that a child is abused or neglected" shall include (i) a finding made by an attending physician within seven days of a child's birth that the results of a blood or urine test conducted within 48 hours of the birth of the child indicate the presence of a controlled substance not prescribed for the mother by a physician; (ii) a finding by an attending physician made within 48 hours of a child's birth that the child was born dependent on a controlled substance which was not prescribed by a physician for the mother and has demonstrated withdrawal symptoms; (iii) a diagnosis by an attending physician made within seven days of a child's birth that the child has an illness, disease or condition which, to a reasonable degree of medical certainty, is attributable to in utero exposure to a controlled substance which was not prescribed by a physician for the mother or the child; or (iv) a diagnosis by an attending physician made within seven days of a child's birth that the child has fetal alcohol syndrome attributable to in utero exposure to alcohol. When "reason to suspect" is based upon this subsection, such fact shall be included in the report along with the facts relied upon by the person making the report.

C. Any person who makes a report or provides records or information pursuant to subsection A or who testifies in any judicial proceeding arising from such report, records, or information shall be immune from any civil or criminal liability or administrative penalty or sanction on account of such report, records, information, or testimony, unless such person acted in bad faith or with malicious purpose.

D. Any person required to file a report pursuant to this section who fails to do so within 72 hours of his first suspicion of child abuse or neglect shall be fined not more than \$500 for the first failure and for any subsequent failures not less than \$100 nor more than \$1,000. (1975, c. 341, § 63.1-248.3; 1976, c. 348; 1978, c. 747; 1993, c. 443; 1994, c. 840; 1995, c. 810; 1998, cc. 704, 716; 1999, c. 606; 2000, c. 500; 2001, c. 853; 2002, cc. 747, 860; 2006, cc. 530, 801; 2008, cc. 43, 268.)
